

200 days schedule (CC1079) for treatment of complicated cases of Type II Diabetes (Days 1 to 40).

Pankaj Oudhia

Introductory Note

In complicated cases of Type II Diabetes, the Traditional Healers of Indian state Chhattisgarh use Complex Herbal Formulations. They use it in form of schedules of different durations including 200 days schedule. These Complex Herbal Formulations are used with internal and external remedies and specific food materials. I have documented traditional knowledge practiced in over 10,000 complicated cases of Type II Diabetes. This research document presents knowledge about herbs and herbal formulations used in Complicated Case 1079. In treatment of such cases there is no thumb rule. The treatment varies from patient to patient. Different Healers give different views and comments on same schedule. It results in modified schedules.

SPECIAL PRECAUTIONS. Nervous system disorders, including dizziness, headache, and vertigo, have been reported with the use of this formulation. In addition, there have been reports of allergic reactions, including skin rashes and hives, and of changes in taste and smell. These symptoms are usually mild and resolve on discontinuation of the drug. However, severe allergic reactions, including anaphylaxis, have been reported. Therefore, patients should be advised to discontinue the use of the drug and seek medical attention if they experience any of the above symptoms. The following table lists the adverse reactions reported with the use of this formulation:
